Mighty Lewd Books-J. Peakman 2003-06-24 *Mighty Lewd Books* describes the emergence of a new home-grown English pornography. Through the examination of over 500 pieces of British erotica, this book looks at sex as seen in erotic culture, religion and medicine throughout the long eighteenth-century, and provides a radical new approach to the study of sexuality.

Black Soldier, White Army-William T. Bowers 1997-05 The history of the 24th Infantry regiment in Korea is a difficult one, both for the veterans of the unit & for the Army. This book tells both what happened to the 24th Infantry, & why it happened. The Army must be aware of the corrosive effects of segregation & the racial prejudices that accompanied it. The consequences of the system crippled the trust & mutual confidence so necessary among the soldiers & leaders of combat units & weakened the bonds that held the 24th together, producing profound effects on the battlefield. Tables, maps & illustrations.

The Social Organisation and Customary Law of the Toba-Batak of Northern Sumatra-J.C. Vergouwen 2013-11-11 J. c. Vergouwen's work, *Het Rechtsleven der T'oba-Bataks*, here presented in an English translation, was published in the autumn of 1933, a few weeks before the author's death at the early age of 44 from tuberculosis, from which he had suffered since 1930. During the time he spent in a sanatorium in Davos and later in the Netherlands, he began and completed his monograph on the customary law of the Toba-Batak. His book immediately became one of the outstanding works of Dutch scholarship on Indonesian customary law (Adat law). Jacob Cornelis Vergouwen began his career as an administrative officer in South Borneo (now Kalimantan) in 1913, after a brief practical training. In 1921 he was given the opportunity for further study at the University of Leiden where a five-year scientific training for a

career as an administrative officer in the Dutch East Indies had just been instituted. On obtaining his Master's degree, he was appointed to the Tapanuli Residency, from of old, the homeland of the Toba, Mandailing, Angkola, and Dairi or Pakpak Batak. As a young official, Vergouwen had already evinced great interest in the laws and customs of the Dayak people in Borneo. His studies at the University brought him into close contact with the founder of the science of Indonesian Adat law, Professor Cornelis van Vollenhoven, one of the greatest Dutch jurists of this century.

The Conferences of John Cassian-John Cassian THE obligation, which was promised to the blessed Pope Castor in the preface to those volumes which with God's help I composed in twelve books on the Institutes of the Coenobia, and the remedies for the eight principal faults, has now been, as far as my feeble ability permitted, satisfied. I should certainly like to see what was the opinion fairly arrived at on this work both by his judgment and yours, whether, on a matter so profound and so lofty, and one which has never yet been made the subject of a treatise, we have produced anything worthy of your notice, and of the eager desire of all the holy brethren. But now as the aforesaid Bishop has left us and departed to Christ, meanwhile these ten Conferences of the grandest of the Fathers, viz., the Anchorites who dwelt in the desert of Scete, which he, fired with an incomparable desire for saintliness, had bidden me write for him in the same style (not considering in the greatness of his affection, what a burden he placed on shoulders too weak to bear it)--these Conferences I have thought good to dedicate to you in particular, O blessed Pope, Leontius, and holy brother Helladius. Electric and Hybrid Vehicles-Gianfranco Pistoia 2010-07-27 Electric and Hybrid Vehicles: Power Sources, Models, Sustainability, Infrastructure and the Market reviews the performance, cost, safety, and sustainability of battery systems for hybrid electric vehicles (HEVs) and electric vehicles (EVs), including nickel-metal hydride batteries and Li-ion batteries. Throughout this book, especially in the first chapters, alternative vehicles with different power trains are compared in terms of lifetime cost, fuel consumption, and environmental impact. The emissions of greenhouse gases are particularly dealt with. The improvement of the battery, or fuel cell, performance and governmental incentives will play a fundamental role in determining how far and how substantial alternative vehicles will penetrate into the market. An adequate recharging infrastructure is of paramount importance for the diffusion of vehicles powered by batteries and fuel cells, as it may contribute to overcome the so-called range anxiety." Thus, proposed battery charging techniques are summarized and hydrogen refueling stations are described. The final chapter reviews the state of the art of the current models of hybrid and electric vehicles along with the powertrain solutions adopted by the major automakers. Contributions from the worlds leading industry and research experts Executive summaries of specific case studies Information on basic research and application approaches

Black Soldier, White Army-William T. Bowers 1996 Seven Boys Held Captive for 22 years!When Daniel Ciarletta and his father, Pete, boarded a boat in 1947 bound for Italy, to visit Pete's ailing father, they could not have known what awaited them. Everything changed for Daniel and the Ciarletta family.Daniel was abducted and taken to Opi, a rural mountain community that had survived for centuries by sheep herding until 1943, when retreating German soldiers seized all the boys and able-bodied young men as work prisoners. Daniel soon became a work prisoner as part of a devious plan by the citizens of Opi-including the local priest who had evidentially lost his "moral compass"- to abduct young foreigners to take the place of the men they had lost.With no idea of where he was or why, and unable to speak Italian, Daniel began working in the fields and plotting his possible escape.Meanwhile, back in America, the once happy and loving Ciarletta family began to slowly disintegrate under the burden of conflict, anger and guilt caused by Daniel's mysterious disappearance.

Indians of North Carolina-O. M. McPherson 2018-05-15 In 1913 the State of North Carolina officially recognized Robeson County Indians as "Cherokees," a designation that went largely unnoticed by the Federal Government. When the same Indians petitioned for Federal recognition and assistance in 1915, the Senate tasked the Office of Indian Affairs to report on the "tribal rights and conditions" of those Robeson County Indians. Special Indian Agent Orlando McPherson, a Midwesterner who was in the final stages of a long career as a civil servant, was commissioned to investigate. The resulting federal report is essentially literature review in the guise of fact-finding. It relies heavily on Robeson county legislator Hamilton McMillan's musings on the relationship between Sir Walter Raleigh's Lost Colony and the Indians around Robeson County. The report reaches many erroneous conclusions, in part because it was based in an anthropological framework of white supremacy, segregation-era politics, and assumptions about racial "purity." In fact, later researchers would establish that the Lumbees, as Malinda Lowery writes, "are survivors from the dozens of tribes in that territory who established homes with the Native people, as well as free European and enslaved African settlers, who lived in what became their core homeland: the low-lying swamplands along the border of North and South Carolina." Excavations would later establish the presence of Native

people in that homeland since at least 1000 A.D. Ironically, McPherson's murky colonial history connecting Lumbees to early colonial settlers was used to legitimize them and to deflect their categorization as African-Americans. The McPherson report documents one important phase of an Indian people's long path to self-determination and political recognition, a path that would designate them variously as Croatan, Cherokee Indians of Robeson County, Siouan Indians of the Lumber River, and finally, Lumbee--the title of their own choosing and the one we use today. The Bedroom-Michelle Perrot 2018-08-21 An erudite and highly enjoyable exploration of the most intriguing of personal spaces, from Greek and Roman antiquity through today The winner of France's prestigious Prix Femina Essai (2009), this imaginative and captivating book explores the many dimensions of the room in which we spend so much of our lives—the bedroom. Eminent cultural historian Michelle Perrot traces the evolution of the bedroom from the time of the ancient Greeks and Romans to today, examining its myriad forms and functions, from royal king's chamber to child's sleeping quarters to lovers' trysting place to monk's cell. The history of women, so eager for a room of their own, and that of prisons, where the principal cause of suffering is the lack of privacy, is interwoven with a reflection on secrecy, walls, the night and its mysteries. Drawing from a wide range of sources, including architectural and design treatises, private journals, novels, memoirs, and correspondences, Perrot's engaging book follows the many roads that lead to the bedroom—birth, sex, illness, death—in its endeavor to expose the most intimate, nocturnal side of human history.

Sugar Blues-William, Of 1981-07 It's a prime ingredient in countless substances from cereal to soup, from cola to coffee. Consumed at the rate of one hundred pounds for every American every year, it's as addictive as nicotine -- and as poisonous. It's sugar. And "Sugar Blues," inspired by the crusade of Hollywood legend Gloria Swanson, is the classic, bestselling expose that unmasks our generation's greatest medical killer and shows how a revitalizing, sugar-free diet can not only change lives, but quite possibly save them.

Thrice-Greatest Hermes-G. R. S. Mead 1906 This is the edition including all three books. The so-called Hermetic writings have been known to Christian writers for many centuries. The early church Fathers (Justin Martyr, Tertullian, Clement of Alexandria) quote them in defense of Christianity. Stobaeus collected fragments of them. The Humanists knew and valued them. They were studied in the sixteenth and seventeenth centuries, and in modern times have again been diligently examined by many scholars. G. R. S. Mead has issued a

translation of the whole body of extant literature, with extended prolegomena, commentary, etc. There is a wide difference of opinion as to the date at which this literature was produced. Mead believes that some of the extant portions of it are at least as early as the earliest Christian writings, while von Christ assigns them to the third Christian century, and thinks that they show the influence of neo-Platonism. To affirm that they influenced New Testament usage would be hazardous, but they perhaps throw some light on the direction in which thought was moving in New Testament times.

The Cambridge History of China: Volume 9, The Ch'ing Dynasty to 1800, Part 2-Willard J. Peterson 2016-04-07 Volume 9, Part 2 of The Cambridge History of China is the second of two volumes which together explore the political, social and economic developments of the Ch'ing Empire during the seventeenth and eighteenth centuries prior to the arrival of Western military power. Across fifteen chapters, a team of leading historians explore how the eighteenth century's greatest contiguous empire in terms of geographical size, population, wealth, cultural production, political order and military domination peaked and then began to unravel. The book sheds new light on the changing systems deployed under the Ch'ing dynasty to govern its large, multi-ethnic Empire and surveys the dynasty's complex relations with neighbouring states and Europe. In this compelling and authoritative account of a significant era of early modern Chinese history, the volume illustrates the ever-changing nature of the Ch'ing Empire, and provides context for the unforeseeable challenges that the nineteenth century would bring.
